RELATED PROFESSIONAL EXPERIENCE

Tech Elevator, Academic Fellow

June 2021 - Present

- Serve as a first line of support for students that need help with concepts, homework and capstone projects
- Grade daily assignments, quizzes and provide feedback via an academic dashboard
- Tutor and prepare students for the technical interviewing process by supporting them through exercises and whiteboard sessions
- Encourage students to excel and promote a positive atmosphere

Tech Elevator, Software Engineering Certificate

October 2020 - February 2021

Attended a 14 week Java coding boot camp, learning how to develop dynamic web-based software systems

- **Capstone Project:**
  Web application that allows registered users to create a stock market trading game instance and invite other registered users. Newly created games provide users with a default amount of starting capital to invest in stocks at real time values. The winner is determined by having the highest portfolio value once the game reaches a specified end date/time and holdings are liquidated.
  [Java, Spring MVC, PostgreSQL, HTML5, CSS3, JavaScript, Vue.js]
